

PRESS RELEASE

FOR IMMEDIATE RELEASE:

StarTex Power Automates Proposal and Contract Management with InSite Services *Enterprise Content Management Solution Enables StarTex Power to Efficiently Scale Operations*

DALLAS, TX --- May 5, 2008 – InSite Services, a leading provider of on-demand/SaaS business process management technology services, today announced an agreement with StarTex Power, a Texas-based retail electric provider.

StarTex Power has selected InSite's enterprise content management solution, IntelliSite™, to automate the creation and processing of the company's customer proposals and sales contracts. IntelliSite™ will enable StarTex Power to generate and distribute thousands of customer proposals on a daily basis to manage the complex pricing challenges of dynamic energy markets. Proposals that result in contracts for the company will be processed electronically through IntelliSite's automated workflow across multiple departments prior to customer activation in the company's core billing system. IntelliSite will also deliver real-time information management reporting, securely store proposals and customer contracts, and provide authorized users with universal browser access to customer information. As a complete on-demand managed solution, InSite will configure and implement IntelliSite™ while providing full ongoing management of the system including user training, 24/7 help desk, system administration, and infrastructure management.

"We are experiencing rapid growth in our business and have a commitment to efficiently scaling operations while providing uncompromised service to our customers and business partners," said Miles Higgins, senior vice president of StarTex Power. "InSite will play a critical role in helping us eliminate paper-based manual activities resulting in more timely delivery of customer proposals, faster and more accurate processing of customer contracts, and quicker response to customer inquiries."

"We are excited to have the opportunity to work with StarTex Power on this important initiative and look forward to helping StarTex Power transform and streamline critical business processes to meet the company's growth objectives," said Jeff Anderson, president of InSite. "Our ability to customize a complete solution for the complex energy market requirements of StarTex Power is a strong indicator of how InSite is making it possible for organizations of all sizes to reap the benefits of enterprise-class content management systems without large upfront investments in software and infrastructure."

ABOUT STARTEX POWER

StarTex Power is a Texas-based and Texas-owned Retail Electric Provider. Our management team has over 60 years of experience in the deregulated utility industry. At StarTex Power we are committed to establishing the highest standards in the industry with competitive prices, easy to understand billing, as well as superior customer service.
